

Brokers for Good applications open August 1

As a purpose-driven modern mutual, we value supporting our broker partners and your investment in our communities.

Through our Brokers for Good Matching Program, we grant up to \$10,000 in matching funds to support registered Canadian charities focused on poverty, equity, or climate change.

In 2023, we proudly matched the contributions of our broker partners, donating over \$200,000 to 49 different charities.

How to apply

If your brokerage is supporting a registered Canadian charity aligned with one of our strategic focus areas: poverty, equity, or climate change, we invite you to request up to \$10,000 in matching funds. Join us in creating measurable impact and a better tomorrow by applying in our next granting call **opening on August 1, 2024**. We will soon be sending out an email with a link to apply.

We look forward to spreading good in our communities alongside you.
