

Give your best homeowner clients the discount they deserve

A good risk is hard to come by. That's why Gore Mutual is rolling out the red carpet for your best clients with a **new business discount** for Ontario homeowners.

On the heels of our [introducing rate capping to our homeowner book for renewals](#), this discount ensures that those risks with the best characteristics are rewarded with our best pricing.

This discount is just one way that Gore is continuing to sophisticate our rating in order to provide competitive pricing.

Please note that the discount will be applied directly to the end premium and will not show on the quote or the declaration pages. In addition, to ensure we are providing the most accurate rate, we remind you to please confirm that your customers' personal information is current and that you have requested credit consent. In addition, please ensure that any dwelling updates such as heating, electrical, plumbing and roof are captured. Based on the information available on the policy, we may ask additional underwriting questions at time of bind or renewal.

If you have any questions, please call our National Underwriting Operations.
